

Books to Bits

Google's digitization effort will be expensive and time consuming. The graph below shows how long a single book-scanning machine would take to scan the collections of the largest libraries in the United States, plus the University of Oxford. Of course, the more machines Google uses, the sooner they'll finish.

NOTE: SCANNING MACHINES TAKE APPROXIMATELY ONE HOUR TO SCAN ONE VOLUME. SOURCE: AMERICAN LIBRARY ASSOCIATION, LIBRARY OF CONGRESS, NEW YORK PUBLIC LIBRARY.
